Learner Information

Most cars today have built-in on-board diagnostics tools (OBD) that can recognize problems and report them using a series of error codes.

Automotive Service Technicians must know how to look up error codes to find out what they mean. There are error code databases and charts that provide descriptions of each error code, and most can be found on the internet.

Look at the Trouble Codes Chart and/or use the internet to complete the tasks that follow.

Trouble Codes Chart
