Task Title: MiningSafetyPart1_EA_A1.2_A2.1

Learner Information

The mining industry is made up of various occupations which include driving different pieces of equipment on and off the jobsite. In all occupations there is a focus on safety on the job. Scan the **Overview of Joint Health and Safety Committee certification and mining safety training** bulletin to complete the tasks.

Overview of Joint Health and Safety Committee certification and mining safety training

Focus on workplace-specific hazards - JHSC Part 1, 2, and Refresher training

JHSC Certification: Part 1

This mandatory course provides participants with an understanding of how to recognize, assess and control workplace hazards, the rights and duties of certified members, and how to conduct effective workplace inspections and incident investigations.

JHSC Certification: Part 2

Focusing on the concepts of recognition, assessment, and control of hazards, and evaluation of the hazard controls, participants learn how to apply these concepts to a minimum of six hazards relevant to their own workplaces.

JHSC Certification Refresher

Certified members of a joint health and safety committee are required to take Refresher Training within three years of becoming certified, and every three years thereafter to maintain their certification.

About Workplace Safety North

Your health and safety partner

An independent not-for-profit, Workplace Safety North (WSN) is one of four sector-based health and safety associations in Ontario.

Headquartered in northern Ontario, WSN supplies province-wide Ministry-approved workplace health and safety training and services for the mining and forest products industries.

As a leading provider of health and safety training and consulting, businesses call upon WSN for expert advice and information.

For more information, please contact your WSN Health and Safety Specialist or visit workplacesafetynorth.ca

The internal responsibility system (IRS) is a system where everyone shares responsibility for occupational health and safety that is appropriate to their role and function within the workplace.

All workplace parties — including employers, managers, supervisors, and workers — need to do their part to raise awareness of risks, and follow and promote safety procedures to help make workplaces safer.
