## Work Sheet

**Task 1: The client, Susan Brown, recently started working in a new restaurant. Update her work number to (705) 726-2323.**

Answer:

Task completed successfully: Yes:  No:

---

**Task 2: Why do you think it would be important to know about a client's allergies and medications?**

Answer:

---

**Task 3: Susan Brown currently has light ash brown hair and has come in for a colour touch up on her roots. Her stylist, Janet Smith, knows that Susan's natural hair colour is very dark brown (level 3) and about 1/4 of her hair has gone gray. The formula that Janet uses for Susan is 30 ml of developing lotion to 30 ml of 9NA Light Natural Ash Brown colour. Susan's hair texture is coarse.**

**Using this information, complete one of the "Salon Use Only" columns in the Client Profile.**

Answer:

Task completed successfully: Yes:  No:

---

**Task 4: If the stylist put Susan's colour on at 9:30 a.m. and it needed to stay on for 45 minutes, what time would the stylist rinse Susan's hair?**

Answer:

---

Task Title: HairdresserClientProfileForm\_EA\_A2.2\_B3.2a\_C2.1\_C3.2

**Task 5: The ratio for a semi-permanent colour is 2:1 (developer : colour). How much developer would the stylist add to 20 ml of colour?**

Answer:

---

## Answers

**Task 1: The client, Susan Brown, recently started working in a new restaurant. Update her work number to (705) 726-2323.**

Answer: Work phone number should be crossed out and updated with the new number.

**Task 2: Why do you think it would be important to know about a client's allergies and medications?**

Answer: A client could have an allergic reaction to products used in their hair or to refreshments that may be served. Some medications may also affect hair condition.

**Task 3: Susan Brown currently has light ash brown hair and has come in for a colour touch up on her roots. Her stylist, Janet Smith, knows that Susan's natural hair colour is very dark brown (level 3) and about ¼ of her hair has gone gray. The formula that Janet uses for Susan is 30 ml of developing lotion to 30 ml of 9NA Light Natural Ash Brown colour. Susan's hair texture is coarse.**

**Using this information, complete one of the "Salon Use Only" columns in the Client Profile.**

Answer: Information should be filled in under one of the colour columns at the bottom of the form.

**Task 4: If the stylist put Susan's colour on at 9:30 a.m. and it needed to stay on for 45 minutes, what time would the stylist rinse Susan's hair?**

Answer: 10:15am

**Task 5: The ratio for a semi-permanent colour is 2:1 (developer : colour). How much developer would the stylist add to 20 ml of colour?**

Answer: 40mL of developer

### Performance Descriptors

Levels	Performance Descriptors	Needs Work	Completes task with support from practitioner	Completes task independently
A2.2	performs limited searches using one or two search criteria			
	uses layout to locate information			
	makes low-level inferences			
B3.2a	uses layout to determine where to make entries			
	begins to make some inferences to decide what information is needed, where and how to enter the information			
	makes entries using a limited range of vocabulary			
C2.1	adds, subtracts, multiplies and divides whole numbers and decimals			
	understands chronological order			
	identifies and performs required operation			

Task Title: HairdresserClientProfileForm\_EA\_A2.2\_B3.2a\_C2.1\_C3.2

Levels	Performance Descriptors	Needs Work	Completes task with support from practitioner	Completes task independently
C3.2	understands and uses ratio and proportion			
	interprets, represents and converts measures using whole numbers, decimals, percentages, ratios and simple, common fractions (e.g. $\frac{1}{2}$ , $\frac{1}{4}$ )			

This task: Was successfully completed  Needs to be tried again
