## Answers

**Task 1: Look at the menu. If you order the breakfast special and a bottle of orange juice, how much will the subtotal (before tax) of your bill be?**

$$\$4.95 + \$2.50 = \$7.50$$

**Task 2: How much would it cost (before tax) for a western omelette with cheese?**

$$\$8.75 + \$1.50 = \$10.25$$

**Task 3: How much would the total bill be for peameal with 2 eggs, French toast with sausage, and two cups of coffee, including 13% tax?**

- $\$8.25 + \$7.50 + \$1.55 + \$1.55 = \$18.85$
- $\$18.85 \times 13\% = \$2.45$
- $\$18.85 + \$2.45 = \$21.30$

**Task 4: Which costs more, the bacon plate or the peameal plate?**

The peameal plate (\$8.95 vs \$7.25)

**Task 5: What is the difference in cost (before tax) between a full order of Eggs Benedict and a half order of Eggs Benedict?**

$$\$8.75 - \$7.25 = \$1.50$$

**Task 6: If you ordered a ham omelette and you wanted to add tomatoes, how much would the subtotal be?**

$$\$6.99 + \$1.25 = \$8.24$$

**Task 7: You are having breakfast with five of your friends. You each order the breakfast special and coffee. If you split the bill evenly, including tax, how much would each of you pay?**

- $\$4.95 + \$1.55 = \$6.50$
- $\$6.50 \times 13\% = \$0.85$
- $\$6.50 + \$0.85 = \$7.35$

Or

- $\$4.95 + \$1.55 = \$6.50$
- $\$6.50 \times 6 = \$39.00$
- $\$39.00 \times 13\% = \$5.07$
- $\$39.00 + \$5.07 = \$44.07$
- $\$44.07 \div 6 = \$7.35$
