

**Task Title: Hazard Symbols Picture Match**

OALCF Cover Sheet – Practitioner Copy

**Learner Name:** \_\_\_\_\_

**Date Started:** \_\_\_\_\_

**Date Completed:** \_\_\_\_\_

**Successful Completion:** Yes  No

**Goal Path:** Employment  Apprenticeship

Secondary School  Post Secondary  Independence

**Task Description:**

The learner will match hazard symbols with their corresponding title and definition.

**Main Competency/Task Group/Level Indicator:**

- Find and Use Information/Read continuous text/A1.1
- Find and Use Information/Interpret documents/A2.1

**Materials Required:**

- Pen/pencil and paper and/or digital device

## Learner Information

Understanding and recognizing hazardous materials is vital for anyone working in an environment with these substances. Employers must ensure that hazardous products are properly labelled according to the Workplace Hazardous Materials Information System (WHMIS). Workers should be able to recognize hazard symbols on products and understand what they mean.

## Work Sheet

Draw lines to connect the Hazard Symbols pictures to the matching words and definitions.

Poison: If you swallow, lick or in some cases, breathe in the chemical, you could become very sick or die.

Flammable: This product or its fumes will catch fire easily if it is near heat, flames, or sparks. Rages used with this product may begin to burn on their own.

Explosive: This container can explode if heated or punctured. Flying pieces of metal or plastic from the container can cause serious injury, especially to your eyes.

Corrosive: The product can burn your skin or eyes. If swallowed, it can damage your throat and stomach.

## Answers

Poison: If you swallow, lick or in some cases, breathe in the chemical, you could become very sick or die.

Flammable: This product or its fumes will catch fire easily if it is near heat, flames, or sparks. Rages used with this product may begin to burn on their own.

Explosive: This container can explode if heated or punctured. Flying pieces of metal or plastic from the container can cause serious injury, especially to your eyes.
